PRESSURE WASHERS

PW6010

The BLAUPUNKT PW6010 pressure washer is a device with which you can quickly remove stubborn dirt from many surfaces. It is perfect for the home, garden or for washing the bodywork of a car or motorbike.

The machine has a maximum pressure of 180 bar (working pressure of 120 bar) and a power output of 2300 W, making it capable of removing the most stubborn dirt and stains, such as grime, dust or rust. It will also be ideal for washing bodywork.

And the PW6010's high output of 390 l/h ensures that cleaning is quicker and more effective. This parameter also ensures that the washer can cope with large surfaces or those that are difficult to clean, such as patio tiles, building facades or cars. The aluminium pump is a guarantee of long, trouble-free operation.

Safe operation is ensured by the Auto Stop System, which protects the unit from overheating or running dry. The washer will automatically switch off if it overheats or runs out of water.
