

LED 12X PRO HP

Blaupunkt LED lamps are energy efficient and last longer

Caution! The cooling element on the back will heat when the headlamp is in operation.

Installation Tips and Suggested Guidelines:

- Please do not touch the open LED section of the lamp at any time.
- While installing the LED lamps, please make sure that the reflector part of the headlight is wiped clean.
- Post installation, it is recommended that user check alignment of the lamps as recommended by the vehicle manufacturer.
