Brand history

**1924** – A company named "Ideal" was first founded in Berlin when radio was still in its infancy. Every unit was carefully tested by technicians and labeled with a seal for quality — the blue dot. It did not take long before customers simply asked for the "bluepoint" products. The blue dot quickly became known as a symbol of outstanding quality.

1932 – The first car radio in the world was launched by Blaupunkt.

1938 – The dot became a trademark as well as the new company name: Blaupunkt.

1959 – The year 1959 saw the delivery of the one millionth car radio.

1971 – Ten million Blaupunkt car radios.

1974 – First car radio with traffic information receiver.

1979 – 25 million Blaupunkt car radios.

1982 – Prototype of first route guidance system.

1989 – World´s first mass production ready traffic navigation system.

1999 – Production of 100 milion Blaupunkt car radios.

2002 – First web-linked navigation system.

2007 – 75 years car radio.

2010 – Blaupunkt TV and Multiband Receivers became the first licensed product categories of the Blaupunkt Global Brand Community.

2012 – The product range of Blaupunkt was expanded to include additional product categories such as tablet computers, mobile navigation, audio and video and air conditioning.

2015 – Blaupunkt have been awarded as the "Brand of the century – German brand standards".

2016 – The product range of Blaupunkt was expanded to include additional product categories such as small household appliance.

Today – The Blaupunkt Global Brand Community is a growing community of independent brand partners covering almost every category of the consumer lifestyle all over the world.

AIR HUMIDIFIERS

Comfortable air humidity is one of the key determinants if it comes to our health and well-being. Dry air, especially during wintertime, can cause headaches, mucosal irritation, sleeping problems, fatigue and susceptibility to infections. The best possible humidity for our health varies between 40-60%. The premium Blaupunkt humidifiers will keep the humidity in the room, up to user preferences. The device is equipped with an ionizer and has aromatherapy function. Negatively ionized air reduces the number of bacteria in the surroundings and neutralizes the harmful effects of electrical equipment on air quality. Aromatherapy perfectly goes with other types of treatments, and the user-selected fragrance will soothe the senses, improve the mood, and became a relaxing moment. Thanks to its quiet operation, the humidifiers may also work at night.

OIL-FILLED RADIATORS

HOR811

The oil-filled radiator is an ideal solution for long, autumn and winter evenings. It is perfect for rooms that require thermal insulation due to the low-efficiency heating system or leaking windows, as well as holiday homes when we decide to use the radiator in the colder season. Thanks to the installed castors and handles, the Blaupunkt HOR801 oil-filled radiator will definitely be useful in places where the cold is overwhelming. Electronic control, based on the thermostat, adjusts the operation power and stabilises the temperature according to the user's preferences. The appliance has three heating power levels and an Eco mode available.

Technical data:

- Heating area: up to 25 m²
- Digital control, adjustable temperature and power, 3 heat level settings
- LED display and remote control
- Timer function (delayed start and shut down)
- Special design combining the best features of convection heaters and oil-filled radiators: fast heating and long and stable heat accumulation
- Faster heat distribution
- Air tunnels to facilitate faster heating of the room
- Foldable wheels base without user assembly
- Tip-over switch, over-heat protection
- Power cord storage
