

Product Information Sheet

Commission Delegated Regulation (EU) No 626/2011

Supplier name or trademark **BLAUPUNKT**

Model identifier **ACP414**

Model identifier(s) intended for indoor use **ACP414**

Model identifier in the case of devices intended for outdoor installation

EPREL number: **2323201**

Indoor sound power levels (cooling mode) **65 dB**

Outdoor sound power levels (cooling mode) **-**

Refrigerant name **R290**

GWP of the refrigerant **3**

Refrigerant leaks contribute to climate change. If released into the atmosphere, a refrigerant with a lower Global Warming Potential (GWP) has less impact on global warming than one with a higher GWP. The device contains a refrigerant with a GWP of 3. This means that if 1 kg of this refrigerant is released into the atmosphere, its impact on global warming would be three times greater than the impact of 1 kg of CO₂ over a 100-year period. Never attempt to handle the refrigerant circuit or disassemble the device yourself – always seek assistance from a qualified specialist.

Cooling mode

Energy Efficiency Ratio (EER) **2.6**

Energy efficiency class **A**

Hourly electricity consumption Electricity consumption of 1.6 kWh per 60 minutes based on test results conducted under normal conditions. Actual electricity consumption depends on how the device is used and the location where it is installed.

Cooling capacity **4.1 kW**
