## **Product Information Sheet**

Commission Delegated Regulation (EU) No 626/2011

Supplier name or trademark	BLAUPUNKT
Model identifier	ACP616H
Model identifier(s) intended for indoor use	ACP616H

Model identifier in the case of devices intended for outdoor installation

EPREL number: 2323248
Indoor sound power levels (cooling mode) 65 dB

Outdoor sound power levels (cooling mode)

Refrigerant name R290
GWP of the refrigerant 3

Refrigerant leaks contribute to climate change. If released into the atmosphere, a refrigerant with a lower Global Warming Potential (GWP) has less impact on global warming than one with a higher GWP. The device contains a refrigerant with a GWP of 3. This means that if 1 kg of this refrigerant is released into the atmosphere, its impact on global warming would be three times greater than the impact of 1 kg of  $CO_2$  over a 100-year period. Never attempt to handle the refrigerant circuit or disassemble the device yourself – always seek assistance from a qualified specialist.

Cooling mode	
Energy Efficiency Ratio (EER)	2.7
Coefficient of Performance (COP)	2.5
Energy efficiency class	Α
Hourly electricity consumption during cooling	Electricity consumption: 1.7 kWh per 60 minutes based on test results conducted under standard conditions. Actual electricity consumption depends on how the appliance is used and the location in which it operates.
Hourly electricity consumption during heating	Electricity consumption: 1.3 kWh per 60 minutes based on test results conducted under standard conditions. Actual electricity consumption depends on how the appliance is used and the location in which it is installed.
Cooling capacity	4.7 kW
Heating capacity	3.3 kW
