

QUICK GUIDE OF SMART CONNECT TO APP

1.Download App

You can download the Smart Life or Tuya app

2.Register a account and sign in the app

Open the app, tap "Register" to register an account, then sign in the app.

3.Add device and change device's name

Sign in the account, add the device.

Before connecting, turn on the bluetooth on your cellphone.

First time to connect, the light should blink quickly when first started.

If not,you need to reset:

perform 5 x on /off and after that leave the device switched on (not too fast, the source must go out completely, max.5 sec. pause), the light should start blinking quickly, which confirms the reset. If the source does not blink,repeat the procedure.Please follow the 2 steps below to finish setting.

Step 1: Turn on the power,confirm light bulb is now rapidlyflashing
(2 times per second)

Step 2: Select the type of device you are adding

4.Enter Wi-fi password, then connect

You Make sure your router, mobile, and device are as close as possible
